

## **PRIOR CARE OF EYELASHES** **Before Your Eyelash Extension Appointment**

- Do not wear eye makeup, must be removed prior to the application process.  
*(Use oil-free cleanser with a lint free pad).*
- Do not apply face creams/sunblock. The oil found in moisturizers prevents eyelash adhesive from bonding to the natural eyelash and reduces the longevity of your eyelash extensions.
- If you wear contacts, wear glasses to your appointment. Eyelash adhesive may cause irritation to contacts
- Do NOT wear mascara. Removing mascara is time consuming and any residual makeup will prevent proper application of the extensions.
- Do not curl your lashes before your appointment. Extensions will not adhere to crimped eyelashes.
